DETAILED ACTION

1. Claims 1 and 25 are generic to a plurality of disclosed patentably distinct species comprising species 1 as shown in figure 3; species 2 as shown in figure 4; species 3 as shown in figures 5 and 6; species 4 as shown in figure 7; species 5 as shown in figure 8; species 6 as shown in figure 9; species 7 as shown in figure 10; species 8 as shown in figures 11 and 12; species 9 as shown in figure 13; species 10 as shown in figure 14; species 11 as shown in figure 15; species12 as shown in figures 16 and 17; species 13 as shown in figure 18; species 14 as shown in figures 19 and 20; species 15 as shown in figure 21; species 16 as shown in figure 22; species 17 as shown in figure 23; and species 18 as shown in figure 24. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
